Bring your rifles, ammo, and scopes (no modern hunting rifles) for our **Long Range Workshop** on May 30, 2026 at 9:00 am. Or try out ours. Two purposes in the class:

1. Allow shooters to try different rifles on the range.
2. Advise shooters on how to improve accuracy.

To start the workshop, Kincade will describe how a match is run and scored.

Then, Circuit Judge (Long Course--Precision Sights and BMM), Farr Ranger (Mid Course--Rifle-Caliber), and Wesley James (Short course--Pistol-caliber rifles), will describe their Rifles, Sights, Spotting Scopes, Tripods, and Shooting Rests and Sticks. You may then try their rifles and get advice on Sight Adjustment including Windage & Elevation, Target Distances, and Reloading recipes. The Texan cannot attend because of a family obligation.

A handout with detailed information will be available for workshop members.

Rifles that will be available include:

Long Course

1874 Shiloh Sharps with MVA sights

A limited supply of ammo will be available to try out our rifles. A chronograph will be available. Participants are also encouraged to share info about their rifles and to try each other's rifles, ammo, spotting scopes and gun rests, and share reloading recipes.

Circuit Judge, Wesley James, Kincade, and Farr Ranger will be at the firing line to give advice and share information.

After the workshop concludes, we will run our **Monthly match at 12:00** pm (instead of on the First Thursday on June 4). Monthly match fees are \$20 for members and \$25 for nonmembers.

Hope to see you all there on May 30th.
